## Texas Venture Connect

**Texas Venture Connect is on a mission to build stronger and more successful entrepreneurs.**

Join our Texas-sized network of innovators and mentors from across the state.

## What is Texas Venture Connect?

Texas Venture Connect is a mentor network that brings together diverse experts to increase the odds of success for UT-related entrepreneurs.

### Team-based Mentoring

Mentees benefit from the opportunity to connect with and learn from a dynamic team of experts who bring diverse perspectives and experiences from various industries.

### Modern-day Connectivity

Our online platform extends the network and overcomes geographic limitations, enabling virtual sessions that connect mentors and mentees throughout the UT System community.

### Skill and Knowledge Development

Participants benefit from the knowledge gained by collaboratively working through the business challenges encountered by entrepreneurs tackling unique problems.

“ The program has been critical to our efforts in developing the technology and bringing it to market. Being connected with mentors who have insight to the business world meant mitigating common challenges and getting to the next step faster. ”

– Liao and Schembre  
UTMD Anderson Cancer Center
