Center for Survey Research & Policy Analysis

USING STATA FOR STAT

You may need this session:

If you want to understand what the standard error is,

If you want to know the 95% confidence interval.

If you want to understand the significance test.

If you want to understand how statistical analysis works.

If you want to learn how to use the STATA loop.

FEBRURAY 16 10-11 AM

STATA program & laptop required.

10 Seats Available

Center for Survey Research & Policy Analysis

REGRESSION TABLES

You may need this session:

If you want to learn how to specify a regression model,

If you want to learn how to make a regression table.

If you want to learn how to interpret the regression table.

If you want to have STATA syntax to produce quality tables.

MARCH 15 10-11 AM

STATA program & laptop required.

10 Seats Available

Center for Survey Research & Policy Analysis

INTERACTION MODELS

You may need this session:

If you want to learn a regression model with dummy interactions,

If you want to learn a multiplicative interaction model.

If you want to learn how to interpret interactions.

If you want to have syntax to generate marginal effects.

APRIL 12 10-11 PM

STATA program & laptop required.

10 Seats Available

Center for Survey Research & Policy Analysis
