- Motivation
- Productive
- Creativity
- Organizational
- Adabtability

PROFESSIONAL PROFILE

In the year 2016 I purchased my first digital camara, right away I realized this creative outlet would become more than just another hobby. While living my everyday life I decided to capture the events and scenes around me. By capturing what was just a simple interest to myself, it slowly transfigured into more. I've continued to practice my craft and have expanded throughout the years. I continue to use my photography to capture Lifestyle fashion portraits, Automotive photography, and I'm always open to explore other avenues of photography media.
