**Phone:** (956)457-9196

## About Me

I am a diverse multimedia creator balanced with all sorts of creative software from 2D to 3D elements. I love the freedom of expression and do that within my work as well as knowing the fundamentals of design. Things like hierarchy, typography, space, and color theory. I enjoy all forms of expression from a visual to other feelings like musical and thoughts. In all the mind is a blank canvas waiting to be filled with imagination.

## Education

2012-2016 - Edinburg High School (Top 10% of Class)
