Change of Thesis / Dissertation Committee Form

The reason for this form would be to alleviate difficulties that may occur after a student has initially formed their Thesis or Dissertation committee. One major problem we have encountered in forming Thesis / Dissertation committees includes faculty members who began serving on committees and are no longer employed at UTRGV. Students who must finish their Thesis / Dissertation work do not have an advisor on campus and therefore are penalized. These students have requested changes in their committee chair or members. This form will assist in making all requests from the student official.
