# ACCESSING ZOOM CLOUD RECORDINGS

By default, now all Zoom cloud recordings require users to authenticate with their UTRGV login credentials and to enter a password to watch any cloud recordings. Instructors will need to share these passwords with students to watch any recording.

Sharing a Zoom Recording link that is Password Protected

1. Access your Zoom cloud recordings at https://utrgv.zoom.us/recording
2. Click on the Share button of the desired recording
3. Copy the recording link and access password or click on "Copy sharing information to the clipboard" and share this information with your students

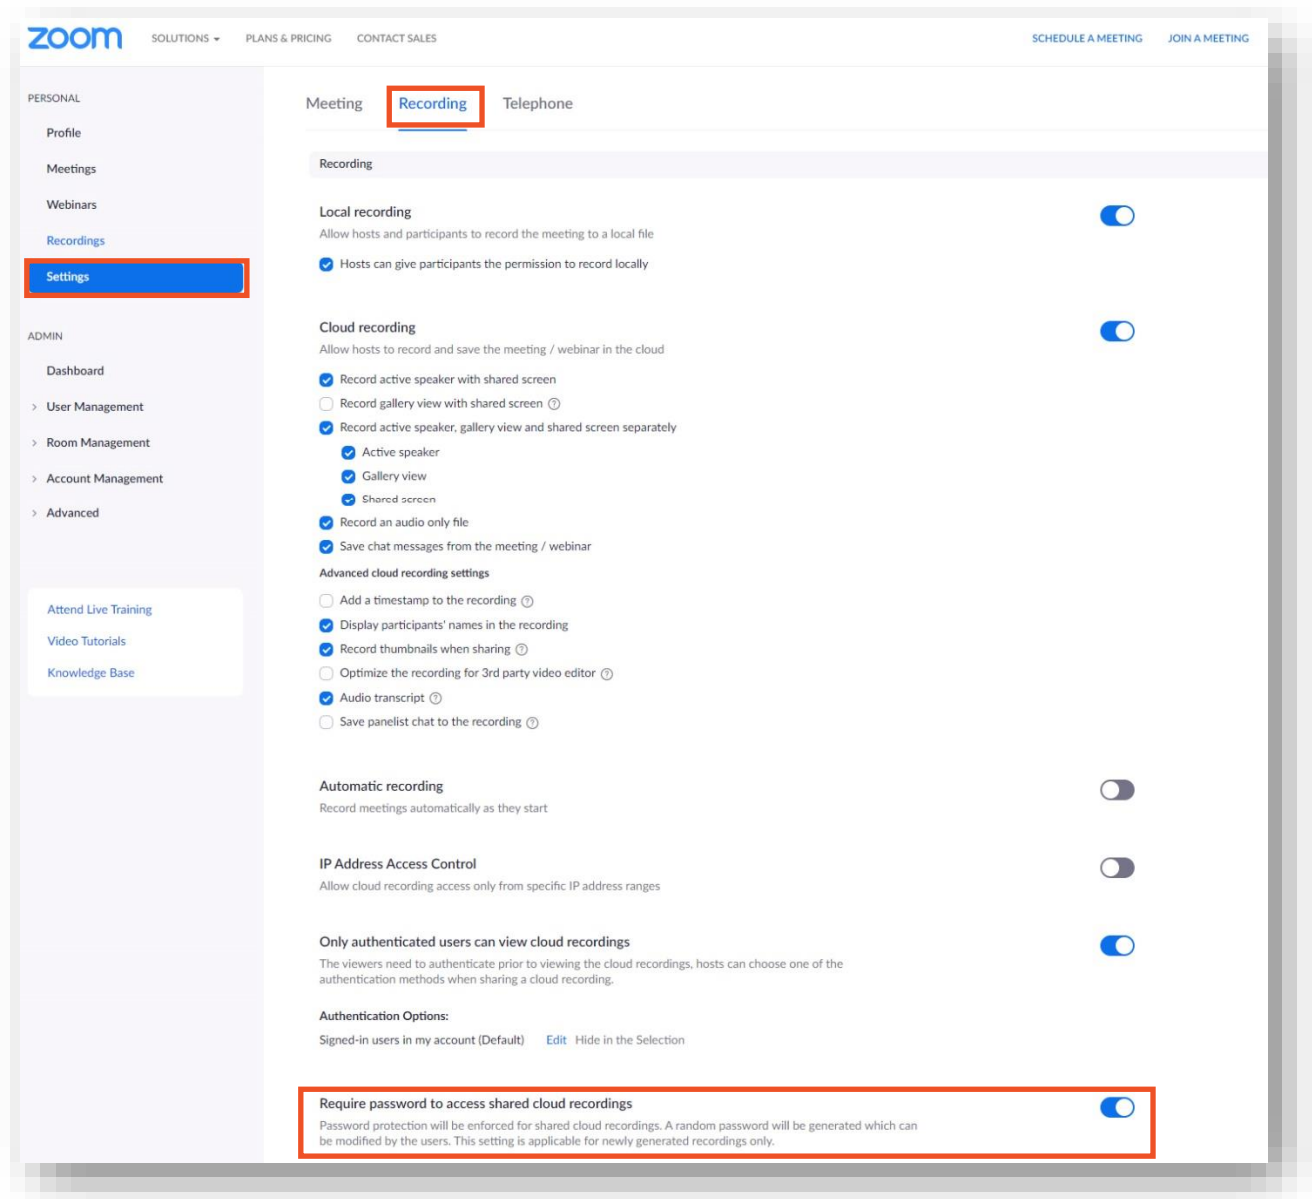

Disabled Required Password to View Zoom Cloud Recording

Instructors may decide to remove the password to access cloud recordings and just leave the option to authenticate with UTRGV credentials as a security measurement. If you would like to remove the required password, please follow the steps listed below.

1. Access your account settings (https://utrgv.zoom.us/profile/setting)
2. Click on Recordings

3. Turn off the "Require password to access shared cloud recordings" option
