

WHAT DO

I OWN?

Tuition paying students enrolled in a degree program own their patentable inventions, prototypes, and copyrights for software and artistic works. This includes those created in courses, using university labs and resources, or during extracurricular activities, **UNLESS...**

1 work is sponsored or grant-funded

2 students work on a work-for-hire or directed institutional project

3 students are employees of any UT System institution and the work is developed within the scope of employment

4 students jointly create the invention or software with an employee
