

Lean & Clean Environmental Value Stream Mapping

Course description: Lean and Clean training provides hands-on guidance to build a Rapid Improvement Team that can identify and prioritize targets for improvement through value stream mapping.

This course teaches people without an environmental background how to “see” environmental wastes and how to eliminate them.

Topics Include:

- Environmental Sustainability
- Lean Concepts
- Types of Wastes
- Clean Concepts
- Combining Lean & Clean
- Energy systems
- Green Value Stream Map

Objectives:

- Shift thinking for lean and environmental savings
- Consider Conservation as the best alternative energy
- Create a green environment
- Learn to See, Do, and Save
